

## **Aegis Electronic Group, Inc. Accepts Outstanding Quality and Delivery Performance Award**

*General Atomics Aeronautical Presents the 2013 Supplier Excellence Award to Arizona based Aegis Electronic Group, Inc.*

**Gilbert, Arizona – October 14, 2014** – [Aegis Electronic Group, Inc.](#) has been awarded the prestigious 2013 Supplier Excellence Award from General Atomics Aeronautical Systems, Inc. (GA-ASI). This respected honor comes through recognition of outstanding Quality and Delivery Performance, and is presented to those suppliers who have exhibited sustained or surpassed 98% quality and an on-time delivery performance rating. The dedication Aegis has exhibited in the high-quality production of Predator® / Gray Eagle® series remotely piloted aircraft systems, radars and mission systems solutions has been demonstrated by their employees and suppliers. Illustrating Aegis's exceedingly high standards, professionalism, and their commitment towards forward thinking, this award exemplifies the benchmarks with which Aegis continues to excel.

General Atomics Aeronautical Systems, Inc. (GA-ASI), is a leading manufacturer of Remotely Piloted Aircraft (RPA), tactical reconnaissance radars, and electro-optic surveillance systems. Gray Eagle® Extended Range/Multi-Purpose (ER/MP) Unmanned Aircraft System (UAS) is an innovative and technologically advanced derivative of the combat-proven Predator® - the most combat-proven Unmanned Aircraft System (UAS) in the world, and of which, Smithsonian's Air & Space Magazine has named as one of the top ten aircraft that changed the world. "We are honored to have Aegis Electronic Group, Inc. recognized for its Outstanding Quality and Delivery Performance," saidCarolynn Larson-Garcia, President/CEO of Aegis Electronic Group, Inc., "accepting this award is a great source of pride, and solidifies Aegis's commitment to continued excellence".

Established in 1989, [Aegis Electronic Group, Inc.](#) has cemented itself as a proven leader in industrial camera technology for Unmanned Aerial Vehicles (UAV), Unmanned Ground Vehicles (UGV) and drones, thermal imaging components and machine vision imaging. Specializing in the distribution, integration and support of visible and Near IR (InfraRed) cameras, as well as components and modified integrated system solutions for industrial and military application, this woman owned small business is recognized as a technological frontrunner. Pairing with the highest quality camera manufacturers, Aegis is able to bring substance and results to the forefront, while allowing the company to address the future with a strong commitment to excellence. Additionally, being ISO 9001:2008 certified promotes a quality management system standard to more than meet client's needs, by sustaining statutory and regulatory requirements related to their products. Aegis remains dedicated to delivering quality products with the highest levels of technical support, and is committed to their Mission Statement of "Providing value to our customers and each other, to inspire leadership through innovation and teamwork."

### **About Aegis Electronic Group**

[Aegis Electronic Group, Inc.](#), specializes in the distribution, integration and support of visible and Near IR cameras, components and modified integrated system solutions for industrial and machine vision imaging applications.

Committed to delivering value added solutions with the highest levels of technical support, customer service and quality hardware, Aegis, over the last 20 years, has transformed from a hardware provider into a full systems integrator of industrial analog and industrial digital camera systems.

Aegis works extensively with the latest digital technologies including FireWire®, Camera Link™, USB 2.0 and Gigabit Ethernet (GigE)® to meet the ever changing needs of our customers.
